Centering Pregnancy

CenteringPregnancy

In CenteringPregnancy, after a woman has her initial obstetric appointment and exam, she is placed in a group with eight to 12 other women who have due dates in the same month. They receive all their prenatal care visits together in 10 sessions of two hours each throughout their second and third trimesters.

A health care provider, such as a physician, nurse practitioner or nurse-midwife, facilitates the groups, carrying out all the medical care the patients would routinely receive per the prenatal care guidelines from the American College of OB-GYN. The sessions include extended time for the provider to facilitate health education and social support among the patients.

Benefits of Centering include:

- Decreased rate of preterm and low weight.
- Increased breastfeeding.
- Better pregnancy outcomes.

The Centering Healthcare Institute is an independent company that provides access to the CenteringPregnancy program on behalf of BlueChoice HealthPlan.

CenteringPregnancy (Continued)

There is a financial incentive for CenteringPregnancy visits, beyond routine prenatal care visit charges. Healthy Blue offers an additional **\$30** per patient, up to **10** visits for the code 99078 , for a total of **\$300**. An additional **\$175** is offered when 0502F is billed on or after the **fifth** visit. Healthy Blue offers up to **\$475** in incentives per patient.

- When treating a pregnant member, use the *SBIRT Integrated Screening Tool*.

CPT Category II Reimbursement

CPT Category II Reimbursement

- Healthy Blue offers reimbursement for the use of CPT II codes to encourage continued, long-term use. The use of CPT II codes benefits the healthcare system by providing more specific information about healthcare encounters. These codes provide data that can be used to help us all work more efficiently and effectively in the best interest of the member. Take advantage of this great revenue opportunity by enhancing your billing process.
- Additional payments for CPT II codes are made once **per service, per member, per year** and are earned by completing the criteria for billing the CPT II codes listed in the following tables.
